

WHY CHOOSE ALKA FLOW?

800 GPD

Filters with "Push" system
Easy and clean change

Two outlets
Filtered water
Alkaline purified water

Reverse Osmosis
High performance

Alkaline postfilter
Regulates pH and mineralizes

Extremely quiet

Technical data

- Output: 2.10 L/min
- 800 GPD membrane
- Voltage: AC 220V-50/60Hz
- Power: 96W
- Inlet water pressure: 0.1-0.4 MPa
- Working pressure: 0.4-0.9 MPa
- Ambient temperature: 2°C - 45°C
- High-end faucet
- Easy filter changes
- Alkaline post-filter to regulate pH
- System dimensions (mm): a. 405 | b. 140 | c. 440
- System weight: 11.08 kg

BENEFITS FOR YOU
AND YOURS

YOUR
WELL-BEING
STARTS WITH
ALKALINE
WATER

More effective hydration. Water that your body absorbs better and faster. Its molecular structure allows for better absorption, promoting rapid and efficient hydration.

Improves digestion and overall well-being. Ideal for people with a healthy lifestyle. It helps neutralize stomach acids, promoting a healthier digestive system. It helps balance the body's pH, improving overall well-being.

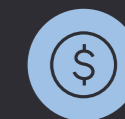

Antioxidant properties. It helps neutralize free radicals and delay cellular aging.

Better taste. Smoother, more pleasant flavor: Its regulated pH improves the flavor, making it more appealing for daily consumption.

No bottles, no plastics

Savings and daily practicality

IDEAL FOR DRINKING

MORE HEALTH, MORE COMFORT, MORE CONTROL

**TECHNOLOGY
THAT MAKES A
DIFFERENCE**

Low maintenance

**Easy under-sink
installation**

**Compact and
elegant design**

Take care of what matters most:
the water you drink every day
