

TECHNICAL DATA SHEET

PROTECTA

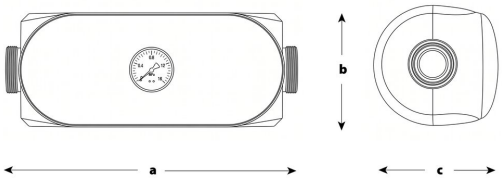

Ionic descaler

PHYSICAL FEATURES

Width (a)	260	mm
Height (b)	100	mm
Depth (c)	118	mm

TECHNICAL FEATURES

Inlet water temperature	0–99	°C
Working pressure	1–10	bar
Connections	DN20 / DN25	
Installation	Vertical/Horizontal	
Valve material	Noryl	
Service during regeneration	Yes	

- No electricity required
- No domestic pressure limitation
- Pure physical ionic polarisation
- No descaling of the storage tank required
